

UIIA Equipment Providers Free Days and Per Diem/Use Charges

Note: For your convenience, we have produced a quick and easy online reference for Motor Carriers to access free time and per diem information for UIIA Equipment Providers. The following document contains only those sections within participating UIIA EP addenda that reflect each Provider's free time and per diem charges.

Please note that there may be other sections contained in an EP's addendum where the application of per diem charges may be addressed (i.e. lost/stolen equipment). To obtain this information Motor Carriers will need to download the Equipment Provider's addendum in its entirety by clicking on the Equipment Provider's company name from your list of pending or approved Equipment Providers.

Click on the links on the following page to take you directly to the Equipment Provider you wish to obtain free time/per diem information for. Should you wish to get back to the list of providers, simply click on the "back to top" link at the bottom of the page.

See III, DESTINATION STORAGE, B. Amount of Free Time
- C. Weekends
Weekends are not considered free
- D. Holidays
Holidays are not considered free
- E. Unroadworthy Equipment
Equipment is considered roadworthy when the Motor Carrier has executed the standard Interchange Receipt and Inspection Report. In the event Motor Carrier and BNSF have signed a Checkpoint Bypass Letter of Agreement, a BNSF Express Lane Pass will be executed in lieu of an Interchange Receipt and Inspection Report. The parties shall be bound by the Terms and Conditions of the Interchange Receipt and Inspection Report, as well as the notations made, or the Checkpoint Bypass Letter of Agreement.
- F. Interchange of Equipment
BNSF and Motor Carrier may be subscribers to the TOFC/COFC Interchange Rules adopted by the Association of American Railroads during part or all of the period this Addendum is in effect. In that event, where provisions in this Addendum conflict with any of the said Interchange Rules, the provisions of this Addendum shall prevail over such Interchange Rules and shall govern the relationship of the parties to this Addendum.

Motor Carrier shall be responsible for the safe and timely return of trailers to BNSF or until delivered to another rail carrier as specified in this Addendum, ordinary wear and tear excepted. Motor Carrier agrees not to interchange trailers obtained from BNSF with third parties, other than rail carriers.

Motor Carrier shall not interchange trailers, either loaded or empty, to another rail carrier when removed from a restricted terminal shown in Exhibit A to this Addendum. If this occurs, Motor Carrier will be assessed a surcharge as set forth in Exhibit A to this Addendum.

Motor Carrier shall be responsible for the safe and timely return of containers and/or chassis to BNSF origin terminal and shall not interchange containers and/or chassis to another rail carrier or third party not authorized by BNSF. If this occurs, Motor Carrier will be assessed a surcharge as set forth in Exhibit A to this Addendum. BNSF "ISO" international steamship containers are controlled by BNSF. At origin, empty container and/or chassis removed from BNSF are to be returned loaded to the same terminal as removed empty. At destination, loaded containers and/or chassis are to be returned empty to the same terminal as removed loaded. They may not be interchanged to another rail carrier or third party not authorized by BNSF. If this occurs Motor Carrier will be assessed a surcharge as set forth in Exhibit A to this Addendum.

Motor Carrier agrees to pay all applicable transportation costs associated with the return of containers and/or chassis to BNSF origin terminal and all applicable use charges which will be assessed until return or container and/or chassis to BNSF, receipt of other rail carrier's interchange receipt by BNSF, or depreciated value is realized.

Motor Carrier shall be responsible to BNSF for the performance of this Addendum by itself and by all persons into whose possession the equipment may go until its proper return to BNSF.

Motor Carrier shall accept responsibility for all owner operators and their leased power units as if they were Motor Carrier's own employees and vehicles. Tractors must be licensed and display permanently attached logos on both sides.

Equipment obtained from BNSF by Motor Carrier will be governed by the terms and conditions of this Addendum. Use charges will be assessed in accordance with this Addendum and Motor Carrier will be held solely responsible for payment.

BNSF is a participant in the North American Container System (NACS) program. The use of NACS equipment and charges shall be subject to the terms of the NACS Agreement. This agreement allows specially marked containers to move among participating railroads. Detention charges covering NACS containers will be billed directly to the customer requesting the NACS container. To participate in the NACS program, the shipper must sign the NACS Agreement. To obtain NACS equipment from a BNSF intermodal hub, the draymen must have a valid BNSF Addendum to the UII Agreement. Specific guidelines covering the NACS program are located in Item 37 of the BNSF Intermodal Rules and Policies Guide.

Monthly billable amounts will be determined based on a credit/debit system. When Equipment is returned or interchanged to another rail carrier before the Free Time Allowance elapses, credit points will be issued. Credit points will equal the number of unused hours remaining in the Free Time Allowance. When Equipment is returned or interchanged to another rail carrier after the Free Time Allowance elapses, debit points will be issued. Debit points will equal the number of hours used in excess of the Free Time Allowance. If Equipment is returned during the last hour of the Free Time Allowance, no debit or credit points will be issued.

- 6.2 Equipment Use Billing Each month, all credit and debit points will be summed to determine a net debit/credit total. If the net total equals a credit or zero, a monthly statement will be issued but **NO** payment will be due. If the net total equals a debit, the amount due will be calculated as the number of debit points times the hourly rate in Section 6.1. Credit points remaining at the end of each month will expire and will not be credited to the next month. Credit points are not dollars, will not be refunded, nor can they be used to pay or offset charges other than Equipment Use Charges.

When a loaded piece of Equipment is taken from a NS Terminal and interchanged under load to another rail carrier within the cycle time allowance, a maximum of twelve (12) credit points will be issued, regardless of the amount of cycle time remaining on the Equipment.

- 6.3 Unscheduled NS Terminal Closing Equipment Use Charges shall not accrue for Equipment during an Unscheduled NS Terminal Closing if Equipment is returned to NS by the end of the next NS business day on which the NS terminal is open.

- 6.4 Equipment Use Charges for Lost, Stolen, Destroyed Equipment Equipment Use Charges for lost, stolen or destroyed Equipment shall cease on the NS business day after Motor Carrier notifies the NS Senior AVP Intermodal Operations or NS Manager Intermodal Maintenance of the loss of or casualty to the Equipment. If Equipment is found and its return is accepted by NS or another carrier, Equipment Use Charges shall be reinstated retroactive to the day they ceased, and shall accrue until the Day of Return (defined in Section 4).

6.5 Misuse Charges Upon reasonable notice, Norfolk Southern reserves the right to charge a misuse charge of \$100 for the first day and \$50 per day per piece of Equipment thereafter until Equipment is returned for each day Equipment is outstanding. This will apply to any of the following situations:

- 1) If Motor Carrier picks up an empty or loaded piece of Equipment and uses it for other moves for benefit of the Motor Carrier and returns it empty or loaded to NS or another railroad.
- 2) Motor Carrier fails to return Equipment within three days after NS makes request in writing. Misuse charges will start to accrue after the third day if Motor Carrier fails to return Equipment.
- 3) Motor Carrier picks up empty Equipment from NS terminal and returns it loaded to a different NS terminal.
- 4) Motor Carrier picks up empty Equipment from NS and returns it to another railroad.
- 5) Motor Carrier picks up loaded Equipment from NS and returns it to another railroad.
- 6) Motor Carrier picks up loaded Equipment from NS and returns it loaded to another NS terminal.
- 7) Motor Carrier picks up loaded Equipment from NS and returns it empty to another NS terminal.

SECTION 7: EQUIPMENT USE AND STORAGE CHARGES / BILLING AND PAYMENT

7.1 Billing and Payment Motor Carrier shall advise NS of its current billing address, and employee by title, to which bills shall be sent, and of its current telephone number.

7.2 Undisputed Billing MOTOR CARRIER SHALL PAY NS THE UNDISPUTED PORTION OF EVERY BILL BY ITS DUE DATE, WHICH SHALL BE STATED ON THE FREIGHT BILL. FAILURE TO PAY UNDISPUTED BILLS BY THE DUE DATE SHALL BE GROUNDS FOR IMMEDIATE CANCELLATION OF THIS ADDENDUM.

7.3 Disputed Billing Motor Carrier shall provide the NS Customer Accounting Department with written reasons and evidence for any disputed or unpaid bills within 30 days of the freight bill date. If NS does not send Motor Carrier its decision on review of Motor Carrier's reasons for a billing dispute within 90 days of NS' receipt of Motor Carrier's reasons, the dispute will be considered resolved in Motor Carrier's favor. NS will provide Motor Carrier with notification of the dispute resolution decision regardless of the outcome. An opinion issued by NS on review of a billing dispute shall be binding, unless an arbitrator or court finds the opinion to be clearly inaccurate as a matter of law, or clearly contrary to the weight of the evidence.

7.4 Reinstatement If 25% of Motor Carrier's non-disputed account balance reaches 90 days old, Motor Carrier's NS Addendum will be canceled (Motor Carrier can not use or interchange NS Equipment) until non-disputed account balance is paid in full. A reinstatement fee of \$300 will be charged, if NS elects to reinstate Motor Carrier's NS Addendum.

PACER STACKTRAIN, INC.

6. EQUIPMENT MISUSE AND RELATED CHARGES

Cross-over Charge. A "cross-over" occurs when Pacer Stacktrain Equipment is returned to a Pacer Stacktrain network location that is not the same as the location from which the Equipment was taken or to a different location that has not been mutually agreed to by Pacer Stacktrain and Motor Carrier before the Equipment is returned. Motor Carrier will return Pacer Stacktrain Equipment to the same location from which it was taken or to a turn-in location mutually agreed to by Pacer Stacktrain and Motor Carrier before the Equipment is returned. If an Equipment cross-over occurs, Pacer Stacktrain may, in addition to other remedies available to it under this Agreement and applicable law, assess an Equipment cross-over charge of \$350 per container or chassis. This charge may be assessed against Motor Carrier if Motor Carrier caused the Equipment cross-over. Motor Carrier may also be responsible for additional expenses associated with such Equipment cross-over, including but not limited to repositioning costs, per diem Equipment charges, maintenance costs, drayage expenses, transloading charges, storage costs, parking tickets, fines, penalties and other amounts required to be paid to retrieve or obtain the release of the Equipment.

Adverse Movement Charge. An "adverse movement" occurs when Pacer Stacktrain Equipment is not routed on the Pacer Stacktrain network, is used to transport shipments not authorized by Pacer Stacktrain, or is otherwise routed or used adverse to Pacer Stacktrain, regardless of the mode of transportation. Unauthorized usage of Pacer Stacktrain Equipment for local intrastate or interstate commerce that is unrelated to an immediate movement via Pacer Stacktrain in intermodal service is considered an adverse movement. Moving Pacer Stacktrain Equipment to Alaska is considered an adverse movement. Motor Carrier will not engage in adverse movements of Pacer Stacktrain Equipment. If Equipment is involved in an adverse movement, Pacer Stacktrain may, in addition to other remedies available to it under this Agreement and applicable law, assess an adverse movement charge of \$1,000 per container or chassis. This charge may be assessed against Motor Carrier if Motor Carrier caused the adverse movement. Motor Carrier may also be responsible for additional expenses associated with such adverse movement, including but not limited to the cost of returning the Equipment to Pacer Stacktrain, per diem Equipment charges, maintenance costs, drayage expenses, transloading charges, storage costs, parking tickets, fines, penalties and other amounts required to be paid to retrieve or obtain the release of the Equipment.

Abandonment Charge. An abandonment occurs when Pacer Stacktrain Equipment is returned to or left at a location that is not on the Pacer Stacktrain network, without prior written approval of Pacer Stacktrain. Motor Carrier will not abandon Pacer Stacktrain Equipment. If its Equipment is abandoned, Pacer Stacktrain may, in addition to other remedies available to it under this Agreement and applicable law, assess an Equipment abandonment charge of \$1,000 per container or chassis. This charge may be assessed against Motor Carrier if Pacer Stacktrain records shown that it was the motor carrier to which the Equipment was last Interchanged. Motor Carrier may also be responsible for additional expenses associated with such abandonment, including but not limited to the cost of returning the Equipment to Pacer Stacktrain, per diem Equipment charges, maintenance costs, repositioning costs, drayage expenses, transloading charges, storage costs, parking tickets, fines, penalties and other amounts required to be paid to retrieve or obtain the release of the Equipment.

**SPECIAL PROVISIONS
RELATING TO THE EMP
CONTAINER PROGRAM**

1. The EMP program has been implemented to facilitate the free flow of EMP Containers among UPRR and Norfolk Southern. An independent company named REZ-1 will be administering the EMP program as an agent for the three railroads. REZ-1's telephone number is (617) 928-5008.
2. REZ-1 will be billing and collecting EMP detention/demurrage charges directly from the customer that requested an EMP Container. No separate EMP detention/demurrage charges will be assessed to the Motor Carrier named in this Addendum.
3. The Motor Carrier named in this Addendum will be assessed and be responsible for all EMP ramp storage charges. The storage free time and charges described in Paragraphs A and B of Exhibit 1 to this Addendum will also apply to all EMP Containers that the Motor Carrier picks up from a UPRR ramp.
4. The EMP program stipulates that EMP Containers, whether loaded or empty, may be interchanged only to UPRR, Norfolk Southern or their respective agents at the same city where the EMP Container was interchanged to Motor Carrier. REZ-1 will provide and update a list of UPRR and Norfolk Southern terminals that will handle and accept EMP containers. For any non-compliance with this restricted use, UPRR will assess the customer requesting the EMP equipment a \$350 per occurrence penalty charge, plus \$25 per day in addition to the normal EMP detention/demurrage charges, and the customer will also be responsible in returning the EMP equipment to the ramp designated by REZ-1. However, if REZ-1 is unable to collect the above penalty charges from the customer or have the EMP equipment returned, the Motor Carrier named in this Addendum will be secondarily liable for such charges and obligations.
5. As is the case with all other UPRR owned or controlled intermodal equipment, the Motor Carrier named herein will be responsible for an EMP Container after it has been interchanged to the Motor Carrier until the Motor Carrier has returned the EMP container to an authorized EMP terminal. If, after any EMP Containers are interchanged to a Motor Carrier, the EMP Containers are destroyed, irreparably damaged, stolen or become lost, the Motor Carrier will be responsible for paying the depreciated replacement value of the EMP Container as determined in Paragraph 13 of this Addendum, except that any accrued detention charges will be assessed by REZ-1.
